DISCLAIMER: The Canadian Centre for Justice and Community Safety Statistics (Statistics Canada) utilizes the Uniform Crime Reporting Survey (UCR) to collect incident-based data on the nature and extent of crime in Canada. An incident is defined as a set of connected events (usually contained in one general occurrence report) that are committed by the same group or groups of persons and occurred at the same time and place. An incident may contain one or more violations of the law, however the UCR survey counts the most serious violation present as determined by the maximum penalty. Any violations against a person take precedence over violations against property.
